Subject: APPLICATION TO RUN FOR BOARD- BUTCH DYRLAND

I would like to submitte my application for the board.

I have lived in the airpark for over 6 years during that time I have worked many hours assisting in the maintenance of the park. I was instramental in hiring a maintenance person to help with duties in the park which has had very positive results with it's appearance. I'm a get it done person and my goal would be to see things are accomplished in a sensible and reasonable manner.

Input from the community is necessary and I would welcome input to the board on matters. I would also encourage more participation buy our community at meetings, gatherings and activities. It's important that we communicate with each other to make or community a great place to live and have fun.

From past experience in law enforcement and private business I have knowledge of budgets and working with people. My goal would be to make our air park a great place to live.
