

Monroe McDonald
Candidate for Eagle Roost Management Board of Directors 2018

I am a full-time resident of Eagle Roost since 2005, this is my only home.

I have been an active non-commercial pilot since 1958, owned seven aircraft, and totaled 3100+ hours.

I was a registered Professional Engineer in Texas 1974-2005 in the field of electrical engineering.

Owned and operated the small firm of Theta Labs, inc. during that period.

Since moving here, I have served ER in the following:

ERM board member 2006-11, president 2009-11

Upgraded runway lighting to current FAA-compliant break-away fixtures

Surveyed ER and produced computer-based drawings of the property and infra-structure, easements etc., useful for planning maintenance

Identified and aided in eliminating most of the orphan parcels created by the developers handling of easements

Aided in the electrical installation and maintenance of the ER gates

Specified and administered the contracted maintenance of ER roads & runway 2011-present

I would like to continue to serve in this manner.
